FINAL REJECTION

The objection of the Drawings is withdrawn accordance with the proposed Drawings filed 6/1/06.

The rejection under 35 USC 112, second paragraph, and over Yoashizawa (US 6,369,644) are withdrawn in view of the arguments presented in this Amendment.

Claim Rejections

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 remain rejected under 35 USC 102 (b) as being anticipated by Kovacs et al (US 6,144,981).

As the best construed, Kovacs et al discloses a filter circuit in Figures 4-7 comprising:

- multiple inductor section (16b1-16b2), each said inductor equivalent circuit sources (100', 100''); and
- wherein a signal input (Vin) to the ladder filter is provided to at least one of the voltage-controlled current sources by way of gain adjusting means (30b, 33b, 50b), and wherein a gain obtained by the gain adjusting means is set to such a value as realizing a desired transfer function for the ladder filter.

Response to Applicant's Arguments

The applicant's arguments over Yoshizawa are persuasive without traverse.

Allowable Subject Matter

Claims 6-7 are allowed because the prior art of record fails to suggest “wherein the changing means changes the gain, obtained by the gain adjusting means of the ladder filter, based on the error that has been detected by the detecting means” as combined in claim 6.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
